CONTEST OVER RACINE POST- OFFICE ENDED.

Jackson I Case Receives the Much-Coveted Appointment—Oshkosh and Green Bay Offices Become Postal Depositories—Matters of Minor Importance.

Racine, Wis., March 10.—The Racine postoffice fight came to an end yesterday afternoon, when Congressman H. A. Cooper announced that he would recommend Jackson I. Case for the place.

Never in the history of the First district was there such a bitter and prolonged contest for the postoffice. The battle extends back over a year ago, ten candidates came into the field immediately after McKinley was elected.

But only one man could be appointed and Mr. Cooper selected Mr. Case because he and Mr. Case had the support of 90 per cent. of the patrons of the office. That the defeated candidates are sore there is no doubt. During the past three days there have been hundreds of citizens working for their favorites.

Jackson I. Case, the coming postmaster, was born in this city October 23, 1865, and is an only son of the late Jerome I. Case. Twice he was elected mayor of Racine by large majorities. He has been interested in many of the leading manufacturing industries of the city, namely the Fish Bros. Wagon company, J. I. Case Threshing Machine company, J. I. Case Plow company, Manufacturers' National bank, and it was he who established the Belle City Electric Street Railway company. For many years he conducted the immense stock farm for his father and owned and drove many of the fastest horses in the country. He was also secretary and treasurer of the Wisconsin Industrial association, and is interested in many other enterprises. With the masses he is popular, and especially with the workmen. It is said that the assistant postmaster will be James F. Prichard, a young republican. The time of the present postmaster, Andrew Simonson, expires April 1, and Mr. Case will probably take charge on or about that date.

DEATH OF A PIONEER

Brazilia Douglass, an Old Abolitionist, Passes Away

Brodhead, Wis., March 10.—Brazilia Douglass died at his residence in this city yesterday morning. He was nearly 92 years of age.

Mr. Douglass was of Scotch descent, his ancestors having come to New England in the middle of the sixteenth century. In 1835 he removed to Milwaukee, where he took up a settler's land claim. Upon this claim, which was situated at Bay View, he resided until October, 1841, when he moved to Prairieville, now Waukesha, and resided there for several years. His energy and integrity made him a useful citizen and he was honored with offices of trust. He first served as constable in the village and afterwards as sheriff of Waukesha county. He was the secretary of the first temperance organization formed in Milwaukee, and was one of the early abolitionists. He was active in church work.

Mr. Douglass was three times married. His third wife, formerly Abbie Stone, survives him. He leaves one son and three daughters.

MADE A DEPOSITORY.

Oshkosh Postoffice a Clearing House For Its Neighbors.

Oshkosh, Wis., March 10.—The following remittances were received at the postoffice yesterday under the recent order which made the local office a United States depository: Antigo, \$300; New London, \$50; Dodgeville, \$107; Eureka, \$95. These were the first to arrive since the department was opened. Ten Wisconsin offices have been ordered to remit their surplus funds to Oshkosh daily. They are Antigo, Birnamwood, Dorchester, Embarras, Furka, Fremont, New London, Omro, Winnebago and Winnebago. The local office may use such funds in the money order department, but it is also required to deposit in the National bank the surplus above \$500. The Oshkosh office disburses about \$50,000 per annum in excess of its receipts.

GREEN BAY TAKES THE FUNDS
Receives Excess Funds From Adjoining Postoffices.

Green Bay, Wis., March 10.—The Green Bay postoffice has been made a depository and seventeen smaller postoffices in the state will now send all moneys that they have on Saturday nights, in excess of the amounts that the postoffice department allows them to keep on hand, to this office. These offices are Sturgeon Bay, Kewaunee, Peshtigo, Menasha, Fond du Lac, Bailey's Harbor, Cooperstown, Egg Harbor, Evergreen, Fish Creek, Galesburg, Greenleaf, Pound, Royalton, Scandinavia, Shiocton and Stockbridge.

VALLEY OF THE SHADOW OF DEATH

TWO OF JANESVILLE'S ESTI- MABLE WOMEN CALLED.

Mrs. Emmet D. McGowan Passes Away After a Lingerin Illness—Mrs. Sarah E. Huntley Called from Suffering to a Happier Existence.

Mrs. Emmet D. McGowan died at 9:30 o'clock this forenoon. She had been an invalid for over five years, and for several weeks had been failing rapidly.

Mrs. McGowan was the daughter of Mr. and Mrs. Joseph H. Hill, of Beloit. She was thirty-six years of age, and was born in the town of Harmony. Her childhood years were spent in Janesville, and in 1872 the family removed to Beloit.

Beside the devoted husband, two children remain, a girl of nine, and a boy of six.

Funeral announcements will be made later.

Mrs. Sarah E. Huntley Passes Away

After a lingering illness of many months' duration Mrs. Sarah E. Huntley died at 1:45 o'clock this afternoon at her home, No. 2 South Jackson street. The deceased was sixty-nine years of age, and has been for many years a resident of this city, where she was held in the highest esteem. Two daughters—Mrs. Mary Murwin, of Fulton, and Mrs. Nettie Monell, of Chicago, are left to mourn her death. Services will be held from the home at 8:30 o'clock tomorrow morning.

TWO MAMMOTH OX TEAMS

Animals Created Much Interest on the Streets Today

Two yoke of oxen drawing a lumber wagon containing fifteen men attracted no end of attention on the street today.

The oxen were the property of I. U. Fisher, of the town of Plymouth, one team weighing 3500 pounds, while the other weighed in at just 4100.

The oxen were five, six, and seven-year-olds, and were all just a little bit too fat to do much traveling, as did the oxen of yore old times. Both teams were well broke, and Mr. Fisher may well feel proud of his oxen.

APPROVES THE VERDICT

Governor Scofield Endorses the Acquittal of Sheriff Martin

Governor Scofield prior to his departure for Madison this morning took time to talk about the acquittal of Sheriff Martin by a Pennsylvania jury, who found that he had only performed his duty when he and his deputies shot down the striking coal miners. Governor Scofield thought the verdict a just one and stated that if the law did not protect the officers in such emergencies, they could not protect the people.

CUBA MUST AND SHALL BE FREED

SPANISH DOMINION IN THE IS- LAND SHORTLY TO END.

England and the United States Will Join to Secure Independence—Brazilian War Ships Are Bought—Active Preparations for War Still on Foot.

New York, March 10.—[Special]—Rumor here says McKinley has drafted a message recognizing Cuban independence and that Great Britain will follow with a similar recognition. This plan, if followed, would free Cuba without firing a gun. The same authority says Woodford will be instructed to make the final declaration to Spain that the United States will no longer tolerate existing conditions in Cuba. The only alternative which will be presented will be Spain's prompt withdrawal from Cuba or forcible interference by the United States. These intended movements, it is said, account for the extraordinary activity on the part of this country to get on a war footing.

AMMUNITION FOR MEN-OF-WAR

HE WILL MARRY AGAIN

James G. Blaine, Jr., to Marry Miss Beveridge, the Noted Sculptress

New York, March 10.—[Special]—James G. Blaine, Jr., and Miss Kunne Beveridge, the famous sculptress, and granddaughter of ex-Governor Beveridge, of Illinois, have announced their engagement.

Mr. Blaine, it will be remembered, was married several years ago to a Miss Nevins. The union was repugnant to the Blaine family, especially to the mother of the young man, and resulted in an estrangement and finally in divorce proceedings in which the court granted the young wife alimony. The affair created much scandal at the time, and involved the good name of a Catholic priest, Father Ducey, who performed the ceremony clandestinely.

WORKS ALL TOO CHEERFULLY

Barber At the Normal School Incurs the Union's Displeasure

The Barbers' union at Oshkosh that M. H. Whitaker of this city, formed, is at present having a merry time over trying to remove a barber or the name of Holly from the Normal school. In consideration of light, heat and rent given him by the state, Mr. Holly does work for the students at rates lower than those in the city shops. Those not students, it is said, are charged schedule rates. The Barbers' union is making an effort to have Mr. Holly's shop removed from the school, because of what they term this "cut rate" policy. The matter will come up at a meeting of the union.

GONE TO THE INSANE ASYLUM

La Fayette County Woman En Route for Madison.

Mrs. Anna Slater, a popular young lady from La Fayette county, arrived in the city this morning in charge of Sheriff C. C. Bennett, of Darlington. Mrs. Slater, who is a married woman of but twenty-six years, was on her way to the insane hospital at Mendota, where she will receive treatment. Of late she has been subject to fits, and this illness has brought on a nervous disease. A year ago her home burned to the ground, and that fact has since worried her. Her husband accompanied her.

WOODMED IN THE KLONDIKE

Those Proposed for Membership Go at Their Own Risk.

Certain local members of the Woodman order, who have interested themselves in the Klondike gold region, have been informed that there are from 600 to 800 proposed Woodmen who want to go to the Klondike, but the head officers at Rock Island rule that their policies will not be accepted. Those who are already members of the order can go if they please. The order has already paid for one who died in the unexplored country.

ARE YOU TO LIVE IN ALASKA?

Some Requirements That Will Be Found Indispensable

The universal article of diet in this country, depended upon and indispensable, is bread or biscuit. And to make the bread or biscuit, either in the camp or upon the trail, yeast cannot be used—it must be baking powder; and the powder manufactured by the processes of the Royal Baking Powder company, miners and prospectors have learned, is the only one which will stand in that peculiar climate of cold and dampness and raise the bread and biscuit satisfactorily.

These facts are very important for every one proposing to go to Alaska and the Yukon country to know, for should he be persuaded by some out-fitter to take one of the cheap brands of baking powder, it will cost just as much to transport it, and then when he opens it for use, after all his labor in packing it over the long and difficult route, he will find a solid caked mass or a lot of spoiled powder, with no strength and useless. Such a mistake might lead to the most serious results. Alaska is no place in which to experiment in food, or try to economize with your stomach. For use in such a climate, and under the trying and fatiguing conditions of life and labor in that country, everything must be the best and most useful, and above all it is imperative that all food supplies shall have perfect keeping qualities. It is absurd to convey over such difficult and expensive routes an article that will deteriorate in transit, or that will be found when required for use to have lost a great part of its value.

There is no better guide to follow in these matters than the advice of those who have gone through similar experience. Mr. McQuisten, who is called "the father of Alaska," after an experience of years upon the trail, in the camp, and in the use of every kind of supply says: "We find in Alaska that the importance of a proper kind of baking powder cannot be overestimated. A miner with a can of bad baking powder is almost helpless in Alaska. We have tried all sorts and have been obliged to settle down to use nothing but the Royal. It is stronger and carries further, but above all things, it is the only powder that will endure the severe climatic changes of the arctic region."

It is for the same reason that the U. S. government in its relief expeditions, and Peary, the famous arctic traveler, have carried the Royal Baking Powder exclusively.

The Royal Baking Powder will not cake nor lose its strength either on board ship or in damp climates, and is the most highly concentrated and efficient of leavening agents. Hence it is indispensable to every Alaskan outfit. It can be had of any of the trading companies in Alaska, but should the miner procure his supplies before leaving, he should resist every attempt of the outfitter to palm off upon him any of the other brands of baking powder, for they will spoil, and prove the cause of great disappointment and trouble.

SEATTLE A BOOMING TOWN

Klondike Fever Has Sent the City Far Ahead of Competitors.

O. B. Dahl, of Seattle, is in the city, endeavoring to interest local money holders in mining ventures in the Klondike region. He reports having interested several but just how many here will take stock is a matter that is at present hard to solve. Mr. Dahl, who is accompanied by his wife, reports that Seattle is the booming city of the west and that the Alaskan gold fever has sent it ahead at a lively rate.

INJUSTICE TO MR. ROBERTS

Fort Atkinson Man Had Nothing to Do With a Cock Fight.

D. E. Roberts, of Fort Atkinson, denies that he was interested in any way at a cock fight alleged to have been held at Busseyville some time ago. No Fort Atkinson people attended such a gathering, he said, and it is not known that one was held. The Gazette published the article on what was thought to be good authority as the alleged occurrence was reported to Janesville officers. On investigation, however, The Gazette finds that Mr. Roberts' claims are well founded, and there is no room to doubt his assertions. Therefore The Gazette is glad to publish this item in justice to him.

STOLE THE SKUNK SKINS

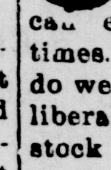

Deed of Some Miscreant Who Enjoyed Pungent Odors

O. H. Mead, who is J. T. Wright's right hand man at 124 West Milwaukee street, says the meanest man in the state resides in this city.

Mr. Mead made the purchase of \$4 worth of skunk skins this week, and wishing to live in peace he hung them in a shed in the rear of the store so that the old sir might circulate freely about them. Some time during the night some bold thief gained entrance to the shed and stole the entire lot of skins, smell and all.

BIG PRICES FOR PIES

Four Dollars Paid For a Premium Mince Pie Last Night.

Say, I would do nothing else in this world but make mince pies if I could get \$4 a pie," said a Fourth ward German lady at the rink building last evening as she saw Auctioneer George M. McKay dispose of the first premium pie to Robert M. Bostwick for four silver dollars.

W. H. Greenman bought the second premium pie, paying a handsome price.

The rest of the pies went at smaller prices. The sale was for sweet charity's sake, the money thus derived to be given the Mary Kimball mission home.

PROMISE A NEW TELEPHONE

Bell Company Moving Towards Establishing an Exchange.

Manager B. H. of the Bell Telephone Company at Portage, has been in the city this week on business relating to the starting of a new telephone exchange in this city. Whether or no his visit here this week has resulted in any definite move is a matter yet to be seen.

HEARS WAR TALK GALORE

Janesville Sojourners in Florida Revel in a Warlike Atmosphere

H. G. Sloan writes local friends from Cocoa, Florida, that plenty of Cuban war talk is heard in that part of the country, and that it is the main topic of conversation among the people. More people are in Florida this winter, he says, than have been there in years. Northern residents fill the leading hotels at a lively rate, which has a tendency to make business lively. Real estate is well thought of in southern Florida, and good prices prevail.

Matting for Floor Coverings. . .

If only all housekeepers knew the value and comfort of matting, how much worry and work would be saved, how many dull houses would look cheery! If you own your home and have hardwood floors thank kindly destiny and dismiss the subject. But if you live in a rented house, or cannot afford hard floors, if for any reason you are considering the subject of floor-coverings, pause long before passing over the advantages of matting. It is clean, fresh and easily cared for. It is a perfect floor-covering in summer and an excellent background for rugs in winter—from the cheapest to the richest—adding to the cheerfulness of a room, yielding all accumulated dust to light brushing, possessing indeed almost every advantage that a floor-covering can have, with no disadvantages. In making a move or refitting a house, every yard of it can be utilized. It is easily renovated (by soap and salt water), and can be matched or pieced, using the whole parts in two rooms to make one good complete room. Lastly, it is cheap, its growing popularity having so encouraged its manufacture or importation that it is to be had almost everywhere in great variety at moderate cost. To sum up its merits, matting gives a house a fresh, clean feeling, a sense of cheerfulness that no other floor covering give. Its soft, new colorings make it available in the most carefully studied color schemes; it is pleasant to walk upon, is a practical protest against dust and microbes, is, in fact, both wholesome and satisfactory.—Home Companion.

NEWS FROM THE MORNING PAPERS

THINK CRISIS HAS PASSED.

Army and Navy Preparations Are Being Conducted in a More Methodical Manner—Great Britain May Refuse to Sell Warships.

Washington, March 10.—There were fewer signs of excitement and haste at the war and navy departments Wednesday, and such preparations as are being made toward putting the army and navy into efficient condition are now going on with more method and less exhibition of the feverish spirit of apprehension that characterized the proceedings of the last few days.

There is a general expression of belief that, for the time, at least, there is no prospect of a hostile collision, and that what seemed to be a crisis has been safely passed.

While the matter has been considered, it can be stated that the emergency fund has not yet been allotted among the various branches of the government service. As the ships are to be first choice in the steps for defense, until their cost is ascertained it is not possible to divide the remainder of the appropriation among other branches of the military and naval services.

Secretary Long is making every effort to secure from our naval attaches and diplomatic officers abroad all information obtainable respecting the number of ships building, their price and other data. This does not necessarily interfere with the execution of the plans confided to Captain Brownson, who has sailed for Southampton, but rather promises to assist him materially in making speed with his inquiries. Up to this moment not only has the United States government bought no warship, but it has not even secured an option on one. There are many applications coming to the department from persons and firms who desire to sell ships to the government, but in most of these cases one of two fatal obstacles is encountered to the consummation of the sales. Either the craft offered is not suitable for naval needs, or the date of possible completion is so far distant—from three months upward—that it cannot be regarded as worthy of purchase to meet an emergency.

CANT BUY IN BRITAIN.

United States and Spain Must Seek Warships Elsewhere.

Washington, March 10.—What appears to be an effectual check to the efforts of the United States to obtain warships from English firms has been given by the unexpected action of the British government in notifying the ship builders that they must not give options to the United States on vessels under construction or make contracts with this country for building new ones without obtaining permission from the admiralty office in London.

This is not to be taken as an act of unfriendliness on the part of Great Britain, as it applies equally to Spanish endeavors to buy ships from the Armstrongs, Thornycrofts, and other English concerns. It is regarded here as an indication that Great Britain has already decided to assert her neutrality between Spain and the United States and that she does not intend to take any chances of becoming involved in another expensive international episode like that of the Alabama.

FOR INDEPENDENCE OF CUBA.

McKinley Completes the Draft of a Special Message to Congress.

Washington, March 10.—President McKinley has completed the draft of a special message to congress in which he recommends the recognition of Cuban independence.

It is his intention to send this message to congress within two weeks. This is intended to be the first step toward a settlement of the differences of the United States and Spain.

To support his claim that the time has arrived when the United States should intervene and stop the devastating war in Cuba the president will submit the correspondence received from consuls in Cuba and Minister Woodford at Madrid.

It can be stated positively that information has been placed in the president's possession establishing beyond controversy the fact that the Maine was destroyed by a torpedo placed under the vessel for that purpose.

Says Spain Has Nothing to Fear.

Havana, March 10.—In an editorial the Diario de la Marina advises calm and prudence, Spain not having to fear anything in the event of war with the United States, since she has received assurances of the sympathies of other nations. France, according to the Diario, is ready to take a large Spanish loan, and Brazil is willing to transfer to Spain some of her warships, which, together with seven more vessels which she has already purchased, would make Spain a formidable maritime power.

American Bids for Cruisers.

London, March 10.—The indications are that the United States government will not wait for the arrival here of Commander Willard H. Brownson in order to purchase war ships. Definite offers have already been made for ships building here, with the view of forestalling Spain, which is supposed to be bargaining for the same vessels.

Pleases the British People.

London, March 10.—The presentation of the British naval estimates has been received with much satisfaction by the

press and public. The total appropriation for the year—\$118,890,000—has never been exceeded. The nearest approach to that amount was in 1894, when \$117,520,000 was appropriated for the uses of the navy. Adding this year's naval appropriation to the army estimates, over \$240,000,000 will be expended on British defenses for the year, exclusive of the amounts to be spent on the Indian army and the armies of the self-governing colonies.

Queen Victoria to McKinley.

Washington, March 10.—It has developed that Queen Victoria has, through Sir Julian Pauncefote, the British ambassador, conveyed to President McKinley her gratification at the wise and conservative course which he has thus far pursued in relation to the Cuban and Spanish situation. She has also expressed to him her thorough sympathy with the efforts put forth by the United States to relieve suffering in Cuba.

Won't Affect the Treasury.

Washington, March 10.—The treasury is in good condition to meet the \$50,000,000 appropriation for national defenses, and it would be possible to pay out \$25,000,000 in addition without seriously affecting the available cash balance. The gold reserve is larger than at any time since 1890, now reaching \$169,000,000, which is \$69,000,000 more than is deemed necessary to a good financial condition of the treasury.

Inquiry Nearly Concluded.

Washington, March 10.—The statement was made at the navy department Wednesday that the report of the Maine court of inquiry probably would come to the department some time next week. It did not appear, however, that this statement was founded upon any direct report from the court, but was rather an estimate based upon the progress so far made as revealed by the change of methods on the part of the court.

Train Kept Ready for Troops.

Denver, Colo., March 10.—The Rio Grande Railroad company has been ordered to hold a train in readiness for the transportation of the troops at Fort Logan. New Cuban maps have been received at army headquarters, and have been distributed among the officers. The preparations are such that within six hours after orders are issued 600 soldiers, with all their equipment, will be on the train ready to move.

Thanks to Lee May Be Voted.

Washington, March 10.—There is little doubt that a resolution will soon be introduced and passed voting to Fitzhugh Lee the thanks of congress for his able, brave and patriotic conduct as consul general in Havana during the last two years. This has been frequently talked about for the last three or four days, and any one of half a dozen senators stands ready to present the measure.

Torpedo Boats Are Speedy.

Glasgow, March 10.—The Spanish torpedo boat destroyers Osado and Audaz left the Clyde bank Wednesday fully manned and with all their guns and other armaments on board. They will embark the ammunition at Grenock and will sail on Saturday. At their trials they developed a speed of thirty knots.

Survivors of Maine Arrive.

New York, March 10.—Five of the crew of the battleship Maine arrived here Wednesday on the steamship Lampasas, from Key West. They are John B. Load, master-at-arms; John Schwartz, cook, and Daniel Topilla, K. K. K. and Fusiano Awe, stewards. They went at once to the Brooklyn navy yard.

"Disastrous to Civilization."

Paris, March 10.—The Temps says that "the war into which the United States throws itself headlong will be disastrous to civilization," and hopes "the good sense and good faith of the Spaniards and Americans will prevent war."

Has a Load of Cartridges.

Madrid, March 10.—It has become known that the Spanish transport steamer Alfonso XII, sailed for Cuba from Barcelona on Sunday last, having on board four officers, 900 soldiers and 4,000,000 rounds of cartridges.

Sicard Was Not Recalled.

Key West, Fla., March 10.—The report telegraphed from here Tuesday night to the effect that Admiral Sicard had been recalled, or had asked to be recalled, is pronounced untrue on authority from the admiral.

Spanish Fleet Is Delayed.

Madrid, March 10.—It is learned that the new torpedo squadron, which it was announced would probably leave Cadiz for Havana on March 11, will not start until after the equinox.

Montgomery Reaches Havana.

Havana, March 10.—The United States cruiser Montgomery, which left Key West yesterday evening, to replace the Maine in Havana harbor, has arrived.

Great War Craft Are Ready.

Philadelphia, March 10.—The monitor Miantonomah and the ram Katahdin went into commission today. There was no ceremony.

INDIANA REPUBLICAN PLANS.

The State Committee Selects Harrison Men for Campaigning.

Indianapolis, Ind., March 10.—The Republican state committee met Wednesday and made plans for conducting the state campaign. Chairman Hernley announced the following executive and advisory committees:

Executive Committee—Eugene H. Bundy, Newcastle, chairman; Edward O. Hopkins, Evansville; William R. McKeen, Terre Haute; George F. McCulloch, Muncie; Enos H. Nebecker, Covington; R. O. Hawkins, Indianapolis; Charles R. Lane, Fort Wayne.

Advisory Committee—First district, Otto Kolb, Boonville; 2d, Thomas H. Adams, Vincennes; 3d, Charles W. McGuire, New Albany; 4th, Arthur Overstreet, Columbus; 5th, Joseph B. Hoeman, Danville; 6th, C. F. Jones, Brookville; 7th, John B. Cockrum; 8th, James W. Sale, Bluffton; 9th, not appointed; 10th, George P. Haywood, Lafayette; 11th, William H. Hart, Huntington; 12th, J. S. Conlogue, Kendallville; 13th, R. B. Oglesbee, Plymouth.

The Harrison wing of the party is in the majority in each of the committees.

COTTON MILLS MAY START UP.

Conference to Be Held Affecting 9,000 Operatives.

New Bedford, Mass., March 10.—Two conferences with the state board of arbitration are to be held today which the board confidently predicts will result in the return of 9,000 idle cotton mill operatives to their work.

Manufacturers have consented to meet the weavers and consider the proposition to eliminate the fines question as a strike issue. The questions involved in the proposition are those of warning, reprimand, and discharge. At the suggestion of the manufacturers the non-union weavers will take part in the discussion and the board of arbitration will be present. It is believed that the manufacturers will promise the restoration of the old schedule when the market warrants it, and that operatives will return to work upon that pledge.

For Hawaiian Republic.

Honolulu, March 1, via San Francisco, March 10.—T. H. Davies, guardian of Princess Kaiulani, has addressed an open letter to the Hawaiians in which he proposes to abandon all further hope of a monarchy for the islands, and make a republic conditionally on the cessation of all further work for annexation on the part of the American residents of the island. This proposition, however, does not meet with the approval of either the natives or Americans.

Britain Will Withdraw Troops.

Washington, March 10.—It was not until late Wednesday that the business of Sir Julian Pauncefote at the white house Tuesday was known. Then it was learned at the state department that the ambassador had called to state that the matter of the incursions of British troops into Alaska at Summit Pass would be satisfactorily adjusted and the troops withdrawn if they were found on American side.

Cuban Situation Affects Politics.

Indianapolis, Ind., March 10.—The Republican state committee decided to postpone fixing the date of the state convention on account of the uncertainty of events relative to the Cuban situation. Chairman Hernley will call a meeting in the near future for this purpose when it becomes settled one way or the other whether there is to be war with Spain.

Union Loses at Cleveland.

Cleveland, O., March 10.—After more than two months' hard fighting the Globe shipyard strike has been settled. The battle is declared off and the men compelled to acknowledge a defeat which may mean a total disintegration of their local union. The outcome gives a complete victory to the company, as the surrender was unconditional.

DANGEROUS SURGERY.

Pyramid Pile Cure Cures Piles Quickly.

People go along for years suffering with piles. They try this and that and the other thing; from carrying a buckeye to getting treatment from a physician. They obtain temporary relief, maybe, but they are never quite cured. A little strain in lifting, excessive fatigue, a little constipation or a little diarrhoea and the piles come back.

They don't seem to amount to much, but they banish sleep and appetite. No position is comfortable. There is intense local pain and that dreadful feeling of weight in the rectum.

Maybe in the early stages some of the many salves on sale will afford temporary relief. If the case is of long standing there is only one speedy and sure remedy. It is Pyramid Pile Cure. Even in light cases it is the safest thing to use. Other applications may cure and may not. Pyramid Cure is always certain, always reliable, always brings comfort at once. Its prompt use saves months of severe suffering. In extreme cases it will save surgical operations and their attendant dangers and discomforts. It is better than a knife. Will cure easier, quicker and safer. Thousands have used it. Thousands have been cured by it. The cost is trifling compared with what it does. The price is 50 cents. Most anybody would gladly pay ten dollars to be rid of piles. Druggists sell Pyramid Pile Cure.

THIS DAY IN HISTORY

1639—Dudley Buck, noted American musical composer, born at Hartford.
1845—Alexander III, czar of Russia, born; emperor 1881; died 1894.
1865—Duke de Morny, friend of Louis Napoleon and statesman of the second empire, died at Paris; born 1812. De Morny was the reputed half brother of Napoleon III. In the coup d'état of December, 1851, he was the general and prime minister of the aspirant to the throne. He made a valuable, not to say indispensable, auxiliary to the emperor.
1872—Giuseppe (Joseph) Mazzini, Italian revolutionist, died at Pisa; born 1805.
1893—Great fire in the old burned district of Boston; loss on property, \$2,500,000; 3 people killed and 30 injured.
1907—General Frederick Salomon, a Federal veteran, noted in the far western armies during the war, died at Salt Lake City; aged 74.

RAISE MONEY FOR DEFENSE.

The celerity with which money was appropriated for the purpose of buying Uncle Sam a few new rifles, etc., must have been a great surprise to Spain. While the agents of that country were scouring Europe to secure a loan of \$50,000,000 and offering the very birthright of the nation for security, but without success, congress was appropriating an equal amount for use in fitting out the ships and troops. While Spain was unable to secure a loan on any condition, the United States, it was announced, could raise this amount without even a bond issue—simply take it out of the store on hand.

When Speaker Reed announced the result of the vote in the house his voice was drowned in the applause. The vote stood: yeas 311, nays none, absent 37.

Thus were partisan disagreements forgotten, and replaced with a wave of patriotism.

This action gives Spain a pretty good idea of the resources of the United States, and the Spanish statesmen cannot be blind to the fact that it is but the beginning.

TEXAS FOR PROTECTION

The Texas congressman who made an ass of himself the other day by declaring to his brother legislators that that the Dingley wool tariff has not improved the condition of the sheep and wool industry in this state, should avail himself at once of the advantages of a kindergarten, says the Southern Republican. Texas sheep and wool growers are the happiest and most prosperous men in the Lone Star State and nine out of ten of them are avowed protectionists. Texas is millions and millions richer for the Dingley wool tariff and the sheepmen of this great state, almost without exception, will rise up and call it blessed whenever the alo ecadid free trade congressman rises to assail it.

8—Falmage Sermon.

A Chicago police official, by hypnotizing a thief in his custody, induced him to divulge the hiding place of \$3,000 worth of property he had stolen. A course in hypnotism may eventually be required for candidates for police positions in the Windy City, but if the thieves should take a notion to similarly qualify themselves for their calling it would be a nip-and-tack contest as to which would obtain the mastery, with the chances favorable to the thieves.

THE NEW CAUCUS LAW.

Milwaukee people were not altogether pleased with the workings of the new caucus law, which was tried for the first time last week. The Sentinel says: "Unless the city convention is abolished altogether and all the candidates for city offices are voted for directly, the old system of selecting delegates in open caucus should be returned as more preferable to the new plan."

War is to be robbed of its terrors. A St. Petersburg correspondent says that the Parlowky shell, a Polish invention, is composed of gelatine filled with an anesthetic gas, which is intended to put every soldier in whose proximity it bursts to sleep, who in time recovers from the stupor.

The wars that are fought with gas—such as the present Chicago Tribune-Spanish war for instance—are not as bad as they might be.

The prohibition party in Alabama seems to be acting in a trance. At the county convention at Anniston, a few days ago, a man who has been dead for five years was nominated for county clerk. Yet the Alabama cold waterites would probably be grieved at the suggestion that they were campaigning on dead issues.

A Georgia minister preached on Cuba the other day and awakened such enthusiasm that he could only quiet his congregation by calling for a collection for the insurgent cause. This seemed to bring the people to their senses, so to speak, and he was thus enabled to finish his sermon.

A Toledo, Ohio, girl made the mistake of the immortal Mr. Casey who "sucked his flambau torch instead of blowin' 'ro' it" while playing with a toy squawker, and the squawker lodged in her throat killing her.

The people of Pocatello, Idaho, must be hard up for something to talk about, for a hail storm during which stones of the usual size fell, provoked a considerable discussion and comment.

*As big as hen's eggs.

A mutually pitiful story was told when two men with \$100,000 in gold dust were recently found frozen to death at Tagish, on the route from the Klondike gold fields to Skaguay.

The New York Sun, which has a penchant for poking straws at the country papers, tells about a woman who "was bitten by a dog in Fourteenth street."

Readers of the metropolitan papers are convinced that "the genial opinion at Washington" is that war will or will not be declared, as the case may be.

The people of Kidder, Missouri, have organized a war relief society. All doubts as to why a joker is dubbed a "kiddier" are now removed.

"Big brotting" in Ireland, it appears, must soon become a lost art. Sixty thousand acres of bogs were drained last year.

And there are divers evidences that the divers' evidences should not be too generally credited just at present.

The exact surplus in the United States treasury for February was \$1,973,102.

The public debt was decreased \$1,597,122 during February.

AFTER DOCTORS FAILED.

Here you have the evidence right at home from one of your own citizens.

"I wish I had a voice which could be heard throughout the length and breadth of this continent, that I might speak to the army of sufferers who are being tortured by the disease with which I have been afflicted for years. I have been an intense sufferer for several years, and everyone who has had that disease knows the extreme agony I must have endured. I chills, burning, scratching, digging and loss of sleep has been my deplorable condition. Four of our best physicians had exhausted their energies on my case, without even giving me relief. Oh, what a godsend to me when one of our druggists called my attention to that wonderful remedy Septicide, and assured me that it would do what skillful hands had completely failed in doing. Suffice it to say that two bottles cured me completely, so there is no return of this dreadful complaint."

AWARDING PRIZES
AT THE BIG FAIRDAY SPENT IN APPORTIONING
OUT PREMIUMS

There Were Many People Made Happy by the Judges' Verdict—Interesting Gathering Last Night—Governor Scofield Discusses Taxation Problems.

There was music in the air last night at the opera house, when a large audience assembled to round up the day's doings of the Farmers' Institute with an intellectual feast. The hall was filled in every part. The orchestra from the school for the blind set matters rolling by an instrumental selection; after which Mrs. H. A. Briggs read a paper on "Does Farming Tend to Elevate Mankind Equal to Other Occupations?" Her opinion was that the life of the agriculturist was one of the noblest in which man can engage.

Professor Robert Reinow's paper on "Our Common Schools" was well considered and highly instructive. He dispelled whatever of prejudice there might be in the minds of the audience against the public school system, and pointed out how it had become the chief bulwark of American civilization and the instrument of human progress.

After a selection by Miss Mabel Taylor, of Orfordville, which drew forth an encore, Mrs. M. G. Jeffris sang with fine effect, "The Bell of Atré."

Gov. Scofield's Address.

Gov. Edward Scofield was then presented and was received with round after round of applause. He said:

After referring to the agricultural college, Gov. Scofield made a plea for honest taxation. The inequalities, he said, could not be suddenly righted, but would be fixed ultimately. The tax commission was at work but a recognition of individual responsibility would be more effective than any law. Wisconsin was rather better off than most states. Continuing he said:

"It is a notorious fact that in Wisconsin by far the greater part of personal property escapes taxation entirely. Mr. Kennan, of Milwaukee, a member of the State Tax commission, who has devoted long study to the question, informs me that it is probable that at least 90 per cent. in value of the personal property owned in the state of Wisconsin escapes assessment. Thomas Brown, tax commissioner of the city of Milwaukee, who is an authority on the subject, gave me an opinion that 75 per cent. of the personal property in the city of Milwaukee escapes taxation, and the balance of the state he thinks, will not differ greatly. In corroboration of this are the figures given of property values in Wisconsin by the United States census of 1890, and a comparison of these with the total assessed valuation of property in the state. The United States census of 1890 places the total property valuation in Wisconsin at \$1,833,308,523. Deducting from this valuation the value of the real estate which is exempt, there is still left a balance of personal property to the amount of about \$735,000,000."

He spoke of the "disappearing personal property" which was not found by the assessors as a rule, and then referred to the corporations. The trust companies, the insurance companies, the sleeping car and express companies, he said, were not paying their just share. Bills were passed by the legislature of 1897, which would have made a start in the direction of compelling these companies to pay their share of taxes, but unfortunately in their passage a specific provision of the constitution was violated which made the measures void, and they were vetoed.

In closing the governor said: "Much as I might feel like denouncing the money leaders for their evasion of taxes and their refusal to pay their just share of the expenses of maintaining the government, I am forced to believe that their action is not due in the first instance to dishonesty, but rather to the fact that they recognize the inequalities of our system of taxation, and that each of them feels that if he will disclose his securities for assessment he will have to pay more than his just share because the other fellows will not disclose theirs. You see this comes back after all to a question of individual responsibility. I can not hope that all of these men who are now evading taxes will come at once to a sense of their duty as citizens and professedly honest men, and will tell the assessor what they have this year; but if each one of us will do that, something will be gained in the interest of tax reform, and every step gained will make the next step easier. I am convinced that the responsibilities of citizenship are not studied carefully enough. I hope that out of these farm institutes and the general system of farm education, will come to the farmer a keener and juster sense of their duties as citizens; and from the farming element will come the reform movement which will stir every man to a desire to perform his whole duty as a citizen, and bear cheerfully the financial as well as the political burdens of citizenship."

Other Exercises

The Motette club gave the "Spring Waltz" with much effectiveness, and in response to an encore rendered "The Star Spangled Banner," which awakened the most intense enthusiasm among the audience, which joined in the chorus with a degree of power seldom equaled.

"Agricultural Education" formed

the subject of Prof. W. Henry's address. He reviewed the history of the movement that led to the establishment of agricultural colleges, and enlarged upon their usefulness to the people at large and the farming community in particular.

After several more musical selections the session closed with the singing of "America," the entire audience uniting, with thrilling effect.

The Closing Session.

It was hurry and rush and bustle all day at the Mid-winter fair. Prizes were given out this afternoon and three men were kept busy sorting out sacks of flour, furniture, decorated lamps, jack knives, mittens, manure sets and striped sheep for the various prize winners.

At the same time that the distribution of prizes began the sale opened in the culinary department, Cakes, pies, doughnuts and cookies were rushed over the counter at a rate that defied famine and sent

latter field appetites to a high premium. The names of the other prize winners have already been mentioned in The Gazette.

The closing session of the Farm Institute brought out a large attendance. The papers were of exceptional interest.

C. L. Hill, of Rosedale, talked of "Breathing and Developing a Dairy Herd." A. G. Judd, of Dixon, Ill., talked of "Cheapest Milk Production;" L. E. Scott, of Neenah, Wis., suggested improved methods for the care of milk, and Professor H. L. Russell, of the State University, gave a valuable address on "What Should We Do With Our Tuberculous Cows?"

The afternoon session was devoted largely to the horse interests. C. P. Goodrich, of Ft. Atkinson, talked of "Economic Feeding;" R. P. Syrecker, of Springfield, Ill., talked of "Mating, Rearing and Marketing the Coach Horse," and J. S. Cooper of Chicago, gave his opinion on "The Horse Market Demands and the Outlook for the Future."

There was a lively discussion after the presentation of each paper, practical men from all parts of the state taking a hand.

The cooking school was a drawing card this afternoon, the menu including salmon soup, lamb, egg dumplings, cabbage with cheese, corn cake, caramel rice pudding and coffee. The talk of the afternoon was on food and morals.

The program for the session at the opera house tonight is as follows:

MO LICENSE VOTE

AT SPRING CONTEST

TEMPERANCE WORKERS WAIT
ANOTHER YEAR.

They Were Notified by Superior Officers Too Late To Begin Active Work—Say a Big No License Vote Would Be Polled—Active at Madison.

The saloons of Janesville will continue to do business for another year at least.

At the coming April election the citizens will not be given a chance to vote on the license or no license question.

The local lodge of Good Templars were notified this year too late by Superintendent E. W. Chafin, of Waukesha, and the result is they will not have time to prepare to fight the coming battle as it should be fought. For this reason there will be no license ticket in the local field, nor will there be any effort made on part of the temperance loving people.

Postponed the Fight

W. G. Kildow, one of the most prominent of state workers in the interest of temperance, stated this morning that as the proper papers were late this year in arriving in Janesville, they had decided that the best cure to take this year was not to even bring up the license question, but to let it stand till next year.

"I believe that this spring election would have been a good time to submit the license question to the voters of Janesville," said Mr. Kildow this morning, "for the simple reason, that so much has of late been said against the saloons. The McLellan saloon matter has stirred the law abiding citizens to a point where they have been looking into the matter more closely. I believe this year that we would have polled a much larger vote than last year."

Agitation Is Brisk.

In spite of the fact that Janesville will not vote on the license question there is no sign that the question of temperance is not being vigorously agitated throughout other sections of the Badger state. In several of the near surrounding towns the question will be voted on this spring.

At Madison the temperance forces are beginning to work in earnest. At the meeting of the temperance board Monday the lists, containing 600 signatures on petitions to submit the license question to a vote, were presented. The workers will continue soliciting until the number reaches 1,000. Mr. Beauchamp will begin his speaking March 24. A public meeting committee has been appointed in each ward and about forty addressees will be made. Next Sunday a mass meeting of the Sunday schools and young people's societies will be held and possibly a general mass meeting will be held next week. The Good Templars have invited District Lecturer Larson of Green Bay to come here and speak Saturday, Sunday and Monday.

The Cynosophs club will meet tomorrow evening with L. D. Brode at the home of F. S. Eldred, 202 South Jackson street. Miss Sayles will lead, and the subject will be "The Puritans."

TIME GRANTED HAS EXPIRED.

Li Hung Chang Advises Granting All That Russia Asks—Three of the Czar's Warships at Hong Kong—Idea of War Is Ridiculed.

London, March 10.—The Peking correspondent of the Times, despite China's denial that the Russian demands as to Port Arthur and Ta-Lien-Wan were in the nature of an ultimatum, maintains the correctness of his original dispatch of Sunday last, to the effect that Russia had called upon China to surrender all sovereign rights over Port Arthur and Ta-Lien-Wan for the same period and on the same conditions as in the case of Germany at Kiau-Chow, giving her five days for a reply and insisting upon the signing of an agreement within a month. He now adds:

"Although the period of ultimatum has expired, Mr. Pavloff, the Russian charge d'affaires at Peking, explains that he has not taken action because China has instructed her minister at St. Petersburg to seek an audience with Emperor Nicholas, with a view of obtaining a withdrawal of the Russian demands."

Sides with Russia.

London, March 10.—A special dispatch from Shanghai says that the influence of Li Hung Chang and the dowager empress have been exercised on behalf of Russia, whose demands so far as China is concerned, will be granted. According to the same dispatch, the Russian title to Deer island has been confirmed.

Russian Ships at Hong Kong.

Hong Kong, March 10.—The Russian warships Sissoi Veliky and Navarin, both belonging to the Black Sea fleet, have arrived here. The political situation in the far east is causing uneasiness among the population of this port.

Ridicule the Idea of War.

Shanghai, March 10.—Diplomatic circles here ridicule the idea of war for Port Arthur. They consider that the English occupation of Wai-Hai-Wei, when the Japanese are gone, will be adequate compensation.

PINGREE'S SPECIAL MESSAGE.

Will Go Into the History of Taxation Legislation in Michigan.

Grand Rapids, Mich., March 10.—Gov. Pingree's special message to the legislature will, among other things, contain a review of the entire history of corporation taxation from the earliest days of Michigan. The early land-grant enactments provided for the payment of certain taxes on the lands themselves, and on the revenue from the lands. A subsequent legislature repealed the taxation clause without the state receiving any consideration from the waived taxes. The legality of this repeal will be questioned.

Charges Conspiracy and Perjury.

Joliet, Ill., March 10.—The Joliet bribery cases assumed a new phase yesterday when John P. King, principal defendant in the now famous King condemnation case, and John C. Carloss, a wealthy Joliet merchant, appeared before State's Attorney W. D. Heise and gave notice that they would today seek to have the Will county grand jury indict Albert Meyers, one of the sanitary district detectives, on charges of conspiracy and perjury. This is the first blow to be struck in retaliation against the sanitary district, and before the week is out indictments may be sought against other employees of the sanitary district, including the trustees themselves. Meyers has been selected as the victim for a test case, as Lins was chosen with the same view by the sanitary district.

Claims He Is Now Champion.

Indianapolis, Ind., March 10.—"Kid" McCoy, having heard nothing from Corbett or Fitzsimmons, wired Richard K. Fox, of New York, calling in the \$5,000 which he had posted to bind a match with either of those men. In the same telegram he declared that he is now champion of the world.

Doubts Revolution in Brazil.

Washington, March 10.—London advises say that rumors on the stock exchange of a revolution in Brazil caused a drop of two or three points in the securities of that country. Minister Mendonca much doubts the correctness of these reports, and says he has no advice indicating trouble.

Arrival of Minister Bernabe.

New York, March 10.—On board the North German Lloyd steamer Kaiser Wilhelm II., which arrived Wednesday from Gibraltar, was Senor Luis Polo y Bernabe, Spanish minister to the United States, who was sent here to succeed Senor Dupuy de Lome.

Merchants Ask Monetary Bill.

Boston, Mass., March 10.—The directors of the Boston Merchants' association adopted resolutions earnestly requesting congress to pass a bill modeled on the lines recommended by the Indianapolis monetary commission.

Wanamaker Will Run.

Philadelphia, March 10.—John Wanamaker, former postmaster general, will be the anti-Quay Republican candidate for governor. He has accepted the leadership recently tendered to him by the Business Men's Republican League.

RUMOR OF STRIKE.

Cartersville Coal Miners Reported to Have Refused to Go to Work.

St. Louis, Mo., March 10.—It was reported in this city Wednesday that the miners in the Cartersville (Ill.) district had refused to go to work or to accept the propositions of the St. Louis and Big Muddy, which were sanctioned by the Miners' union. It is also reported that the day laborers in the Belleville mines will demand ten hours' pay for eight hours' work, beginning April 1. It is the general impression here that the Springfield meeting was not the success it was announced to be, and that another strike of the coal miners of Illinois is imminent. The men are dissatisfied with the settlement effected at Springfield, and say that it was made by the operators and not by authorized representatives of the men.

Boies Writes Another Letter.

Dubuque, Iowa, March 10.—Ex-Governor Boies has written a letter to M. M. Ham, gold Democrat, and formerly a member of the national committee. Mr. Boies says his financial views would preclude his acceptance of the Democratic nomination for congress. He declares against the gold standard, but says free coinage by this nation alone at the ratio of 16 to 1 would be an evil even worse. He renews his plan for the issuance of legal-tender notes based on deposits of gold and silver bullion at the market value.

To Amend Alien Labor Law.

Ottawa, Ont., March 10.—In the House of Commons Wednesday James McMullen introduced a bill to amend the alien labor law by providing that any person desirous of owning, occupying, or becoming a director of any mining company or mining interest in Canada must be a resident of her majesty's realm for at least twelve months, or come from a country in which there is no alien labor law in opposition to her majesty's subjects. The bill was read a first time without discussion.

MARTIN NOT GUILTY.

Murderer of Pennsylvania Coal Miners
Freed by a Jury.

Wilkesbarre, Pa., March 10.—The jury in the case of Sheriff Martin and his deputies for shooting of strikers at Latimer on Sept. 10 returned a verdict of not guilty Wednesday.

When the jury retired Tuesday they took only one ballot, and it was unanimous for acquittal. It is said the jury was prepared for a verdict before leaving the box.

After the jury had been thanked and discharged by Judge Woodward District Attorney Martin asked that the defendants be required to continue their bail bonds, as there are still seventeen indictments for murder hanging over them and thirty-eight for feloniously wounding. The bond was continued as requested. District Attorney Martin says he has not decided what to do with these other cases. The prosecuting committee, it is said, will insist upon further prosecution.

BOMBAY NATIVES RIOT.

Resist Sanitary Measures and Murder
Several Europeans.

Bombay, March 10.—Serious native riots in opposition to the sanitary measures taken to check the spread of the bubonic plague have occurred in this city. A plague inspector and three English soldiers have been stoned to death by the mob and other Europeans injured. Many rioters have been killed and wounded.

Business was suspended and all available troops and artillery were called out. The town is quieter, but a general feeling of uneasiness prevails.

If Short of Breath;

If You Have Dizzy Spells; If Your Heart Palpitates from the Slightest Exertion; If You are Weak, Listless, Tired and Morbid, Take DR. MILES' NEW HEART CURE,

The Great Heart and Blood Tonic.

Don't put it off! Don't neglect yourself until it is too late! Don't delay until you fall at your work! Don't wait until your doctor says your time on earth is short—that you must not be left alone—that you may die of heart failure at any moment! One-fourth of the people have weak hearts. They run in families like weak eyes or weak lungs. They may be caused by overwork, impoverished blood or debilitating sickness. Nervous affections are a prolific cause. Dr. Miles' New Heart Cure strengthens and regulates the action of the Heart while it stimulates the stomach and digestive organs to make rich, red, vitalizing blood, which adds strength to brain, muscle and tissue. It is a great body builder.

Mr. S. D. Holman, Irasburgh, Vt.,

sends the following letter: "Five years ago I had a very severe attack of La Grippe, which left me in a prostrated condition. Gradually my heart became affected and I suffered intense pain in my left side and shoulder. I was also troubled with shortness of breath when I walked, climbed up stairs or exerted myself in any way. I could not lie on my left side and my sleep was broken with those severe pains and a smothering sensation. My doctor seemed unable to give me permanent benefit, and I became despondent. By chance I read in a circular testimonials of those who had been cured by using Dr. Miles' New Heart Cure. I purchased a bottle, and after using half of it I felt greatly improved. I continued using the medicine for several weeks. My appetite returned

to me and I gradually regained my health and strength. I have had no return of my heart trouble since using Dr. Miles' New Heart Cure and I take pleasure in recommending it to all my friends."

Dr. Miles' Heart Cure is the most reliable heart medicine known, and will give relief when others fail.

A POSITIVE GUARANTEE.

You run no risk in giving Dr. Miles' Heart Cure a trial. If the first bottle fails to benefit you, take the empty bottle to your druggist and get your money back. All druggists are authorized to sell the first bottle with that understanding. Book on the heart and nerves sent free. Address, Dr. Miles Medical Co. Elkhart, Ind.

Suits and Skirts.

In the correct styles for Spring of '98 can be seen here. The line comprises the best things from leading manufacturers; garments that are absolutely correct in every detail of material,

trimming, tailoring and price. Probably you'll not find another such assortment elsewhere in this vicinity. However, we shall be glad to have you look before coming here, for then you will be still more deeply impressed with the superiority of our department.

Stylish women have found that this store is first to show correct apparel of every description—first to show for spring of '98 the correct models in Tailor Made Suits and separate Skirts—by all odds the largest line in Southern Wisconsin. SENATE'S GRATIFYING ACTION.

Fifteen Minutes Was All the Time Required for the Passage of the Bill in the Upper House—Not One Vote Cast Against It.

Washington, March 10.—The president Wednesday signed the measure appropriating \$50,183,000 for the national defense, and it is now a law. The bill passed the senate without debate by a unanimous vote. Mr. McKinney, the enrolling clerk of the house, in anticipation of the passage of the bill by the senate, had the bill printed on parchment, ready for formal enrollment, but it was not anticipated that the bill would be passed by the senate without debate. The parchment copy, therefore, was still at the government printing office when the bill passed the senate and was returned to the house. As soon as he learned of the action of the senate Mr. McKinney telephoned the government printing office to hurry the bill to the house by special messenger. At 1:15 o'clock the messenger came clattering up to the capitol with the printed bill. Mr. Hager of Iowa, chairman of the committee on enrolled bills, hurriedly compared the printed copy with the bill as it passed the two houses.

Speaker Reed signed the bill in the house at 1:40 o'clock. At 3 o'clock Mr. Hobart wrote his name upon the valuable parchment, and it was hurried to the white house by special messenger. The vice president will announce to the senate that he has signed the bill when the senate meets to-day. There are precedents for this procedure, although it is unusual.

SENATE ALSO UNANIMOUS.

\$50,000,000 Defense Fund Is Voted Without a Division.

Washington, March 10.—The \$50,000,000 bill was reported to the senate Wednesday by Senator Hale and passed without discussion or objection by the unanimous vote of the senate. Those present and voting numbered seventy-six. The whole proceeding took less than fifteen minutes.

At the conclusion of morning business Senator Hale of the appropriations committee quietly rose and said: "I report from the committee on appropriations, without amendment, an act to supply urgent deficiencies for the current year and for other purposes, and I ask that it be placed on its passage."

The bill, which was the measure appropriating \$50,183,000, of which \$50,000,000 was placed at the disposal of the President for the national defense, was then, amid an intense silence, read in full. At the conclusion of the reading, there being no amendment to the bill, it was placed on its passage.

Senator Hale asked that the yeas and nays be called. Such unanimity as the roll call developed was as unusual as it was significant. Pairs were broken on both sides of the chamber in order that all those present might evince their patriotism and desire to uphold the hands of the President in this time of emergency by voting directly for the measure.

Within a few minutes after the Senate had convened the roll call had been completed and the Vice-President had announced that the bill was passed, seventy-six Senators voting in the affirmative and not one in the negative.

HAWAIIAN ANNEXATION TREATY.

Washington, March 10.—Acting in accordance with the instructions of the committee on foreign relations, Senator Davis Wednesday moved an executive session of the senate for the purpose of taking up the Hawaiian annexation treaty. After some nominations had been considered he moved that the treaty be taken up and that the senate should proceed to the consideration of the amendment offered by Senator Bacon, providing for the submission of the treaty to a vote of the electors of Hawaii. There was an objection, and the senate adjourned.

PROCEEDINGS IN THE HOUSE.

Washington, March 10.—The house devoted itself to routine business Wednesday. The legislative, executive and judicial appropriation bill went through its last stages in the adoption of the financial conference report, and the remainder of the day was consumed in the consideration of the senate amendments to the Indian appropriation bill.

DROPS ELVER AND HARBOR BILL.

Washington, March 10.—The house committee on rivers and harbors voted not to report a river and harbor appropriation bill at this session. Assurances have been given, however, that there will be a bill at the next session, and these assurances removed much of the opposition in the committee.

PRESIDENT HAS FULL POWER.

Washington, March 10.—Although various changes in classification are recommended, the senate civil service committee in a report presented Wednesday takes the position that full power to make any desired modifications is vested in the president, and that therefore no legislation is needed.

GREAT STRIKE THREATENED.

Charleston, W. Va., March 10.—The Kanawha and New river coal miners have been ordered to strike on April 1 and 2,000 men will come out unless the operators agree to meet the terms offered by the United Mine Workers.

For some time I have suffered with rheumatism and tried every imaginable remedy, without effect. Mr. F. G. S. Wells advised me to try Chamberlain's Pain Balm, telling me that it had cured many cases of long standing like mine. I have used four bottles and feel that one more bottle will make my cure complete.—A. P. KONTZ, Claremore, Ark. Sold by Peoples Drug Co., E. Milwaukee street.

LIEUT. TOTTEN'S OPINION.

He Argues That Unexploded Charges Do Not Prove an Intact Powder Magazine.

Lieutenant C. A. L. Totten, in a recent interview regarding the Maine explosion, said:

"It is a fact not commonly known that only about 40 per cent of powder naked in a gun is burned up in its action on a cannon ball. The rest is cast out unburned."

"This principle establishes the fact that even a large magazine could explode and yet 60 per cent of it be found intact in the water. This is particularly so if each cartridge is separately protected in a powder case. Thus the finding of entire cases of unexploded charges in different parts of the Maine is no argument to me that the particular magazine to which they belonged did not explode."

"If the Maine blew up internally from any cause, the numerous magazines would have succeeded each other in procession. Who, therefore, cannot see that a small minor storage room, or even a big torpedo head or charge of any kind, may have started the commotion and wrecked the entire port side in its own locality?"

"The next step in the succession would then have been the 'sympathetic' explosion of a part of some other. Suppose it to have been farther in back, its action would inevitably be to follow the line of least resistance, and so project itself (unburned cases, debris, etc.) forward and to port, and to turn up the decking still more to starboard."

"Now it matters not whether the original commotion came from within or without, the aftermath would have been out through the same crater, and its reaction would necessarily list the ship to the opposite side and turn up its decks still more."

"I have made a study of explosives, and I fail to see a solitary fact that leads my mind to form an honest judgment as to whether the Maine went up from within and then out or from without, up and through.—New York World."

CLEVELAND WAR OUTFIT.
Captain Burdick of Troop A Suggests That His Men Use Silk Underwear.

That part of Cleveland's population which lives without silken underwear had a great laugh recently at an order issued by Captain Burdick to the members of Troop A, Cleveland's swell cavalry organization:

"First.—In consideration of a possible call for service in the field and recognizing the necessity of promptness should such a call be made, you are hereby ordered to hold yourself in readiness and report at the armory immediately upon receipt of orders."

"Second.—Upon receipt of this prepare and have ready a field kit of a few necessary articles as suggested below. It should be of the least possible weight and contain the fewest articles compatible with the maintenance of health. Comfort must be disregarded when men take the field, as it is not only a personal matter, but essential that officers and men should keep themselves in such health as to be ready at all times to do the hardest work."

"In addition to the articles worn or carried on the person the following can be packed on the saddle and in saddlebags:

"One overcoat with cape, one blanket, one pair trousers, one pair heavy shoes with extra laces, two pairs worsted or woolen socks, one suit underwear (silk preferable), one flannel shirt, three pocket handkerchiefs, one woolen or silk nightcap, two towels, one hairbrush, one comb, one toothbrush, one small clothesbrush, two candles, one knife and fork and spoon, one small sponge, one pair scissors, one soap box and soap."—New York Sun.

ABANDONED THEIR WHISKY MINE.

Gale Henson and his syndicate of Holt (Mo.) citizens have abandoned the hunt for the whisky supposed to be in the hold of the steamer Arabia, which sunk in the Missouri river near Parkville 41 years ago. The hull of the lost steamer was located after a long search, but a succession of mishaps to the machinery and the inability to operate the caisson which was sunk to the deck of the boat twice resulted in the final abandonment of the search for the liquor after all the capital of the syndicate had been exhausted. A few bats and boots of no value and a barrel of ham bones were the reward of the search, which has been steadily continued for nearly three months.—Kansas City Times.

THEY WANT TO SCALP SPANIARDS.

Word came recently that several chiefs of the Apaches and Cheyennes, whose reservations are near Fort Reno, have offered their services to Major Woodson to go to Cuba with their warriors and scalp Spaniards. The major has the offer under advisement pending the investigation of the Maine disaster. The Cherokees, so it is said, have offered to raise a regiment also, and there are those at Guthrie, O. T., who think the Indians of the United States could lick the Spaniards if given an opportunity.—Kansas City Times.

HER LUCK.

"It is work, work, work continually, and I never don't get no rest," said the farmer's wife complainingly as she plucked another piece of pie before the minister.

"But you forget that you will have rest some day," he said, soothingly. "Not for me, not for me," she answered, cheerfully. "Whenever I die there is sure to be a resurrection the very next day."—N. Y. World.

SWEDISH REPUBLICAN LEAGUE.

Paxton, Ill., March 10.—The fourth annual convention of the Swedish-American Republican League met in this city Wednesday with 100 delegates present, thirty from Chicago. The convention was called to order by President M. O. Williamson of Galesburg. Aurora was selected as the place of meeting next year. Resolutions were adopted endorsing the administration of President McKinley.

IS THE BABY CUTTING TEETH?

Be sure and use the old and well tried remedy Mrs. Winslow's soothing syrup for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhoea. Twenty-five cents a bottle.

"I can say one thing for Chamberlain's Colic, Cholera and Diarrhoea Remedy; and that is that it excels any proprietary medicine I have seen on the market, and I have been in the practice of medicine and the drug business for the past forty years," writes J. M. Jackson, M. D., Bronson, Fla. Physicians like Chamberlain's Colic, Cholera and Diarrhoea Remedy because it is a scientific preparation, and because it always gives quick relief. WILL DRAIN TOLLESTON MARSH.

Chicago, March 10.—The vast marshes of the Tolleston Gun club, the cause of numberless conflicts between wardens and farmers, and which have cost at least four human lives, are to be drained. The Indiana Supreme court has directed Attorney T. S. Fancher at Crown Point to let the contract for the great Jarneke ditch, which will drain the 7,000-acre preserve and make it useless as a duck hunting ground. The case has been long in the courts and bitterly contested on both sides.

CECIL RHODES AS A POLITICIAN.

Cape Town, March 10.—A representative of the Cape Times, in an interview with Cecil Rhodes, drew from him expressions on the political situation that are interpreted as showing his intention to immediately re-enter active political life as leader of the Progressive party.

GRAND COUNCIL'S WORK ENDED.

Rockford, Ill., March 10.—The grand council of the Royal Arcanum completed its annual meeting Wednesday and selected Quincy as the place of meeting next year. During 1897 there were 1,431 new members initiated into the order in Illinois, a net gain of over 3 per cent.

GIVE THE CHILDREN A DRINK

called Grain-O. It is a delicious, appetizing, nourishing food drink to take the place of coffee, sold by all grocers and liked by all who have used it because when properly prepared it tastes like the finest coffee, but is free from all injurious properties. Grain-O aids digestion and strengthens the nerves. It is not a stimulant but a health builder, and children, as well as adults, can drink it with great benefit. Costs about 14 as much as coffee. 15 and 25c.

"Any old thing"

will do to clean with—some women think. Anything is good enough for them—if they can get a lot of it for little money. This is unwise, surely. Isn't it worth while to find out which will do the most work, and do it without harm to paint and woodwork and fine surfaces? Pearlina is the best cleaner. Pearlina saves rubbing—saves work and wear. Nothing is too good for it. It will wash and clean everything that water doesn't hurt.

Millions NOW USE Pearlina

"THE LIGHT OF THE WORLD"

OR OUR SAVIOUR IN ART

Cost over \$100,000 to publish. Contains nearly 200 full-page engravings of our Saviour, by the great masters. Every picture is reproduced from some famous painting. Agents are taking from three to twenty orders per day. The book is so beautiful that when people see it they want it. The Hermitage, Prado, Uffizi, Pitti, Louvre, Vatican, National of London, National of Berlin, Belvedere and other celebrated European galleries have placed their greatest and rarest treasures at our disposal that they might be engraved for this superb work. "FIRST GLANCE AT THE PICTURES BROUGHT FORTH BY MY EYES," says one. "I should secure the agency here at once," says every editor, "as \$500 can soon be made taking orders for it." Nearly \$10,000 expended on new plates for edition coming from press. Also a man or woman of good church standing can secure position of Manager and Correspondent of this territory, to devote all his time to employing and drilling agents and corresponding with them. Circulars, 5c each. One sent only sold to each person. At store or by mail.

SHE WOULD FIGHT SPAIN.

Helen Yorke, a Chorus Girl, Wants to Become a Vivandiere.

The enthusiasm nightly manifested at the Fifth Avenue theater in New York when at the finale of the second act of "El Capitan" Sousa's stirring march, "The Stars and Stripes Forever," is introduced has spread to the other side of the footlights. De Wolf Hopper and his associates reflect the patriotic fervor of the spectators, none of them in a greater degree than Helen Yorke.

This is the name of the little blond beauty who a few nights ago as she proudly bore the national emblem broke into pitiful sobs, drowned in the outburst of shouts and applause with which the audience greeted their country's flag. These demonstrations, signifying a heartfelt sympathy for the men of the Maine, awoke a responsive chord in the heart of the chorus girl, who is mourning the death of a member of the ill fated crew.

Miss Yorke is now fully determined to devote her services as a vivandiere to the army of the nation should war be declared with Spain. The force of her appeal has secured from several of her comrades a promise to accompany her in the campaign.

"Yes, indeed, I want to fight Spain," said Miss Yorke last night. "I have definitely decided to go to the front as a vivandiere. You may think me a crank or a patriotic fanatic, but one of the brave boys who went to his death that awful night was very dear to me."

—New York World.

CREW OF THE MAINE.

Over Forty Per Cent of the Men on Board Were Foreigners.

Major William Hancock Clement, a well known lawyer of Dover, Del., at the Regent hotel in Washington, said the other night: "The publication of the names of the crew of the Maine has disclosed the nationality by birth of every man on the boat. It shows that over 40 per cent of the men on board this vessel were foreigners, there being 174 American born and 117 foreigners. The latter represent Ireland, Scotland, England, other British possessions, Norway, Sweden, Denmark, Japan, Germany, Malta, Finland, France, Belgium, Greece and Roumania. Of the Americans 130 are from the northern and 44 from the southern states.

"This is exclusive of the officers, one-half of whom were southerners. In my state there has been considerable agitation regarding the advisability of enlisting Americans only for American ships. It has been and is now the practice to enlist men anywhere they may be needed. Secretary Herbert, while in office, urged that enlistment be confined to Americans, and Assistant Secretary Roosevelt is a persistent advocate of Americanizing the personnel of the navy."—Washington Post.
